

# AP Computer Science Homework 1

*Due date:* Monday, September 14, 2015

*Instructor:* Mr. Alwin Tareen

## Part A: Compose An Essay

- Write an essay on the following topic: *Why is programming important?*
- Your essay must have a *minimum* of 300 words.
- You are free to consult various online resources to support your opinions, such as Wikipedia. However, if you use ideas *other* than your own creation, please ensure that you provide citations in a Bibliography section.

## Part B: Submission

- Create a text file using any editor you wish. A requirement of this assignment is that the essay must be submitted in `.txt` format. If you submit in any other format, such as `.docx` or `.rtf` then I will impose point deductions.
- Compose the essay by typing it into the file.
- Send the text file to me as an email attachment.
- If you are in AP Comp Sci A (3), send it to: `altareen+cs3@gmail.com`
- If you are in AP Comp Sci A (4), send it to: `altareen+cs4@gmail.com`
- You will submit 1 file:
  - `ProgrammingEssay.txt`
- Please write the email subject heading as: `AP CompSci HW1 <Student Name>`
