

AP Computer Science Lab 5: Picture Lab, Activity A4

Name: _____

Part A: Picture Lab: Activity A4, Pages 5–8(Exercises 1–3)

- Read through the section on two-dimensional arrays from page 5–8. Then, do Exercises 1–3 on page 8 by writing the implementations for the following methods in the `IntArrayWorker` class.
- Activity A4: Page 8, Exercise 1: Write the `getCount` method.

```
public int getCount(int target)
{
    int count = 0;
    // YOUR CODE HERE
```

```
        return count;
}
```

- Activity A4: page 8, Exercise 2: Write the `getLargest` method.

```
public int getLargest()
{
    int largest = Integer.MIN_VALUE;
    // YOUR CODE HERE
```

```
        return largest;
}
```

- Activity A4: page 8, Exercise 3: Write the `getColTotal` method.

```
public int getColTotal(int col)
{
    int total = 0;
    // YOUR CODE HERE

    return total;
}
```
