AP Computer Science Lab 7: Picture Lab, Activity A6

Name: _____

Picture Lab: Activity A6, Pages 13–15(Exercises 1–3)

- Read through the section on mirroring pictures from pages 13–14. Then, do exercises 1–3 on page 14 by writing the implementations for the following methods in the `Picture` class. Test these methods by creating appropriate test methods in the `PictureTest` class, and by running the `main` function from `PictureTest`.

- Activity A6: Page 14, Exercise 1: Write the `mirrorVerticalRightToLeft` method.

```
public void mirrorVerticalRightToLeft()
{
    // YOUR CODE HERE
```

```
}
```

- Activity A6: page 14, Exercise 2: Write the `mirrorHorizontal` method.

```
public void mirrorHorizontal()
{
    // YOUR CODE HERE
```

- Activity A6: page 15, Exercise 3: Write the `mirrorHorizontalBotToTop` method.

```
public void mirrorHorizontalBotToTop()
{
    // YOUR CODE HERE
```
